

my deare and loving wife I desire you to take these as the
lords and the brotherings of my soule and for ever it is into
the gods of my salvation that we may both be preserved
in the graces of the saints. for the full into the end:
that no temptation may eventually agerit us but that
we may continue to stand in his will freely
yeven to god or suffer what ever god is pleased
and god shall will it in us and make it known unto us
and now my deare heart as for thy coming downe I desire
to the freedom whether thou wilt come this winter and
what caltoll I would for I would not have this from
home at the return of J. J. nor more of my charge (as
to have) I think it will not be convenient for thee
to come downe any more and once this winter if thou
have it here as I need it for my money also I would have
a few raw to myse and when thou comest bring caltoll
and can well if thou have it. I would have too shute
but as for any thing else other living or vitell I would
have the good such as thou canst make good without
much trouble now as for providing for our family
if thou see cause to send after the hay I would
have him Richard willis and if thou see it need

send it to the other to kill the bull or to buy
him or a cow for a belt that is more fitt or if thou
canst buy halfe of a good boate or a luffe for molen
Ewen or for indam Ewen and yelton or to doo farther
as thou see fitt as for the hay I think J. J. will
helpe here with it shortly toll Richard hoping that
I desire him to lend his boat to get it home with or if
he can helpe him selfe with his cart and yelton
shall helpe him a good in some other way and if thou
thou see to borrow william halbit's boat or some other
and if thou see it with the boate take the

him or lewd to sell it on. I think it may be best to
sell the greater part of it where we are to do. if it be
thought fitt and the rest other by the tobacco house
or in the grassy late and or over the way by the way
which John and the other best for a shute the tabe
must be bought much at the way last year some
are busy of making other when John is not a boat
other needfull workes he may other be providing for
to winter or ordering in the new ground my horse was

taken by all of the bay and dove Robert hath him to shelter
 Island I think If my life I could be some
 safe from England and see bring goods to the
 bay and see did intend to let him have my horse and
 it see Some to use now these may tell him for
 themselves I would have the horse kept in good care
 or else found say when Robert hath done with him
 remember my dear love to my father and brother
 and sister Harrington and my dear children brother
 John and Anne with you and all the wife of France
 and neighbors in general who's favor I doubt not but
 I shall see again in the lords time to whom I
 Comitt this and rest thy dear husband
